Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Group I, Claims 1-11 in the reply filed on February 19, 2010 is acknowledged.

Claims 12-22 are withdrawn from further consideration pursuant to 37 CFR

1.142(b) as being drawn to a nonelected inventions, there being no allowable generic or linking claim.

Thus, Claims 1-11 are active and will be examined on the merits.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1, 2 and 4 are rejected under 35 U.S.C. 102(b) as being anticipated by Satoshi et al. (JP 2002-0807010).

Satoshi disclosed composition, comprising aliphatic polyester (see [0032]) and SIPDM (5 - sulfoisophthalate dimethyl sodium salt) - see [0024]), wherein SIPDM can be present in a range from 0.1 wt% to 20 wt% (see [0038]).

Regarding Claim 4 note, that as substantially same, composition disclosed by Satoshi will inherently have same properties, including crystallization peak at same temperature and same heat of crystallization.

3. Claims 1-11 are rejected under 35 U.S.C. 102(e) as being anticipated by Hayes (US 2005/0027098).

Regarding Claims 1-11 Hayes disclosed polyester composition comprising, 25wt% of sulfonated aromatic-aliphatic polyester and 75 wt% polylactide (see abstract and paragraph [0215]), wherein sulphonate component is metal salt of 5-sulfoisophthalic acid or a lower alkyl ester of 5-sulfoisophthalate and can be present in range from 0.1 to 5.0 mole% (see paragraph [0022]) which lead to range of approximately 0.025 to 1.25 wt% based on whole composition.

Note that presence of polylactide (100 mole% of lactic acid) in composition disclosed by Hayes reads on limitation of Claims 6-11.

Regarding Claim 3 Hayes discloses that metal salt can contain monovalent or polyvalent alkali metal as sodium, potassium or others (see paragraph [0026]).

Thus, all compositional limitations claimed by Claims 1-3 and 6-11 are met by Hayes.

Regarding Claim 4 and 5 note that, as substantially same composition disclosed by Hayes will inherently have same properties, including crystallization peak at same temperature and same heat of crystallization.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to GENNADIY MESH whose telephone number is (571)272-2901. The examiner can normally be reached on 10 a.m - 6 p.m.
